

PSV601

FULL HD DVR DASH CAM with GPS & WiFi

The PSV601 is a compact, FULL HD 1080p DVR system that captures your journey in crisp high definition, providing you with ultra clear image recording. With built-in WiFi, you can connect your smartphone or tablet to the PSV601 allowing you to view and transfer your recorded files easily.

GPS logging enables you to record and map out your journey and the G-Sensor feature ensures that your footage is saved and not recorded over, in the event of sudden impact on your vehicle due to an incident.

- WiFi Setup and Playback
- Smart Gesture Sensing Photo
- Supports up to 64GB Micro SD Card
